Professional Summary

Results-driven **Project Engineer** with a strong foundation in **engineering and manufacturing project environments**, specializing in **techno-commercial bid preparation, end-to-end order management, and programme delivery** for high-value, complex projects. Experienced in interpreting **technical specifications, RFQs, and tender documents** to develop compliant and competitive bids, while ensuring cost, quality, and schedule adherence throughout the project lifecycle. Skilled in **MS Project, cost estimation, risk management, and project control methodologies** to drive predictable and efficient outcomes. Adept at coordinating **cross-functional engineering, procurement, and production teams** to meet customer requirements and contractual milestones. Recognized for a proactive, customer-focused approach and the ability to deliver **technical and commercial excellence** in fast-paced industrial settings. Currently pursuing **PRINCE2 certification** to strengthen project governance and delivery frameworks.

Professional Experience

Innovation Project Officer | University of Warwick | UK

Apr 2025 – Present

- **Delivered** and **supported multiple innovation projects** for female founders, incubating businesses, and student startups, ensuring alignment with institutional objectives and funding requirements
- **Developed** detailed Project plans and quarterly **SMART** goals, updating responsible stakeholders to track progress, maintain efficiency, and ensure on-time delivery of milestones
- **Organised** and delivered large-scale engagement and innovation events, applying strong organisation skills to manage stakeholder participation, requirements scoping, and post-event evaluation.
- **Initiated payments** for contractors, external partners and overseas reimbursements via SAP thereby presenting cost reports for stakeholders and management monthly
- Utilised **advanced communication skills** to produce project documentation and reports (plans, risk logs, KPIs, meeting notes) for senior management and funding partners, ensuring accountability and compliance
- Coordinated with **Marketing** and **Digital teams** to strategically showcase innovative portfolios across university-wide digital platforms, leveraging social media analytics to track performance and enhance visibility

Project Coordinator| DHRP | Warwick, UK

Oct 2024 – Apr 2025

- Worked closely with the Senior Project Manager and Principal Investigator to develop, **maintain project plans** and schedules on **MS Projects**, ensuring **on-time delivery** of key milestones, and tracking progress on a dynamic, multi-country **Digital-Health project**
- **Developed** and **maintained project schedules** using **MS Project**, ensuring cross-functional buy-in, critical path visibility, and on-time milestone delivery across multiple concurrent projects
- Conducted **detailed budget analysis** including **variance tracking** and cost-benefit assessments while managing project budgets exceeding £500,000, ensuring compliance with **financial guidelines**, accurate allocation of project grants, and forecasting future financial needs to maintain 100% budget adherence
- Directed **stakeholder engagement** and relationship management as the **primary liaison** for 40+ consortium members, fostering cross-functional collaboration through a centralised NextCloud platform that boosted project efficiency by 20%.
- Created and monitored **Risk Registers** and **Contingency Plans**, leading monthly risk reviews to identify mitigation actions and maintain adherence to cost, schedule, and quality baselines.
- Spearheaded project planning activities including work breakdown structure (WBS) development, task sequencing, critical path analysis, to support robust project forecasting-stakeholder reporting.

Project Operations Administrator | Uni of Warwick

Oct 2023 – Oct 2024

- **Planned** and **transitioned** a department-wide filing system with over 1,000 files from M-Drive to SharePoint, improving accessibility and collaboration.
- Participated in regular project meetings, taking the **minutes** and ensuring action are maintained, and escalating if tasks aren't delivered
- Demonstrated **strong collaboration** across departments to execute PTES and NSS projects, utilising **Power BI** to generate actionable insights and **communicate outcomes** to key stakeholders.
- Oversaw small budgets for events and workshops, ensuring expenditures adhered to overarching project budget frameworks and **processing invoices** accurately to maintain financial compliance on **SAP**.

Project Engineer | Smiths Group | Bangalore, India

Dec 2021 – Sep 2023

- **Led the delivery** of competitive **Project-specific techno-commercial bids** for major Engineering Manufacturing Pumps projects with a Budget over 8 million
- Supported **bid management** activities by reviewing and extracting requirements from **RFQs**, and RFPs, contributing to the development of Project Management Plans (PMPs), in line with client specifications.
- Partnered with Post-order, supply chain, and finance teams to estimate and consolidate material, and overhead costs, ensuring competitive yet deliverable project bids in line with **technical compliance** and profitability targets
- Ensured the selection of seals, piping plans, sizing of sealant systems, and **on-time delivery** of competitive techno-commercial **project proposals** against Request for Quotations.
- **Streamlined and improved the techno-commercial bid process**, supporting optimising workflows and thereby resulting in a 15% reduction in bid preparation time.
- Prepared **progress dashboards, technical reports, and executive presentations** for **Design Reviews, Production Readiness, and Programme Boards**, enhancing visibility of engineering progress, quality metrics, and risk status..

Education

MSc in Programme and Project Management

Warwick Business School, UK

Sep 2023 – Sep 2024

- **Key Modules:** Programme & Project Strategy, Project Financial management, Change management, Global marketing Strategy

Academic Projects

Applying LEAN Project management methodologies in SEMs | Warwick Business School | 2023

- **Optimized project workflows** in SMEs by applying **Lean methodologies**, including **Kanban boards**, to reduce bottlenecks and improve task flow, leading to a 30% improvement in project completion rates.
- **Streamlined resource allocation** and project timelines in SMEs using **Kanban** for task visualization, **Value Stream Mapping** to identify inefficiencies, and **Just-in-Time (JIT)** principles, resulting in a 20% reduction in project delays and increase in team productivity. Act

BE in Chemical Engineering

MS Ramaiah Institute of Technology, India

Aug 2017 – Nov 2021

Soft Skills & Professional Competencies

- **Problem Solving & Analytical Thinking** – Proactively identified project roadblocks and implemented effective solutions, enhancing team efficiency and meeting tight deadlines.
- **Attention to Detail & Time Management** – Ensured high standards of accuracy and quality in all project deliverables while efficiently managing multiple tasks to meet deadlines.
- **Communication & Stakeholder Engagement** – Maintained clear and consistent communication with stakeholders, ensuring alignment and managing expectations throughout project lifecycles.

- **Leadership & Mentorship** – Led development teams, mentored junior engineers, and conducted knowledge-sharing sessions.

Key Skills & Certifications:

- **PM Tools** : Microsoft Project, Primavera P6, Jira, Trello, Smartsheets, Monday.com, Microsoft Planner, Gantt Chart, MS Teams, Slack, Zoom, SharePoint
- **ERP Tools** : SAP, Oracle ERP, Opera, Power BI,
- **Agile** (Scrum, Kanban, SAFe), Waterfall and hybrid Methodology, PRINCE2 and PMBOK practices
- **Lean - Six Sigma** fundamentals, critical path method (CPM), work breakdown structures (WBS)
- **Business case** development, ROI analysis, strategic planning, KPI tracking, compliance and regulatory adherence, procurement, supply chain coordination
- **Google-Basic to Advance Microsoft office** (2021), **Lean Six Sigma-Yellow Belt** (2022), **PMI-Basics of Scrum** (2024)
- **APM Member**, working towards **APM PFQ** (ongoing), **Google project manager certificate**(2025)
